7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within

200 words

This college is situated in an interior place bordering Arunachal Pradesh, the North- Eastern- most state of India. The people are mostly dependent on primitive ways of agriculture. Parents were mostly illiterate who preferred their children to work in the agriculture fields instead of sending them to schools. The few parents with farsightedness to send their children in higher education were faced with economic obstacles. Aspiring students were deprived of higher education and many talents were nipped at their buds.

Hence, the professed vision of this institution was to cater to higher education needs of Jonai as well as the bordering people of Arunachal Pradesh.

The college struggled to motivate both parents and students to join higher education. At the same time those families who couldn't afford to send their children to distant institutions could fulfill their dreams for higher education. The college has contributed considerably in imparting higher education with strong foundations thereby making them competent to meet the challenges of the present day world. It has created an atmosphere for peaceful and harmonious existence between different communities. This is how the college has endeavored to achieve its distinctive vision.
